Thursday, when the Christmas
trees decorating the downtown
streets will be turned on for the
first time.

Merchants are completing the
decoration of their windows for
the treasure hunt on Thursday

this season.

on Wednesday, Thursday, Friday
and Saturday nights preceding
Christmas for the benefit of shop-
pers.

3 INJURED ON ICY PAVEMENTS

Harry L. Baird Struck by
Auto; Car Skids, Hits
Tree On Route 62

Cars skidding on icy streets and
highways left three persons injured
today.

Harry L. Baird, 70, manager and
operator of the Postal Telegraph
office, suffered a compound frac-
ture of the right leg when hit by
an automobile while crossing E.
State st., in front of St. Paul's
Catholic church, at 7:30 p. m.
Monday.

He was removed to Salem City
hospital where his condition today
is reported satisfactory.

Earl Stouffer of Washingtonville
driver of the car which struck
Baird, told police he suddenly saw
a man crossing the street in front
of him and that he applied his
brakes. The machine skidded on the
icy pavement, he said, and hit
Baird.

Baird was enroute to his home,
196 Hawley ave., at the time. Pa-
trolman James Hassey investigated.

Two Youngstown residents, Ed-
ward Aron, 26, and Miss Hazel
Hunter, 21, were injured when their
automobile, driven by Aron, skidded
on a curve on Route 62, one mile
north of Salem, left the road and
hit a tree at 9:40 a. m. today.

The driver was treated at City
hospital for lacerations to the fore-
head and right knee. Miss Hunter
suffered an injury to the right
elbow and shoulder, lacerations of
the head and bruises and con-
tusions of the left knee. Both were
dismissed following treatment.

The front end of their machine
was damaged considerably. State
Patrolman Howard Hessinger said.

Joseph Christopher of Girard
escaped unhurt when his truck
skidded and left the road at the
junction of Routes 794 and 46,
south of Canfield, at 8 p. m. yester-
day.

John Weingart, 82,
Dies Near Patmos

John Weingart, 82, well-known
resident of this vicinity, died of
pneumonia at 3:30 p. m. Monday
at his home in Patmos.

A native of Switzerland, Mr.
Weingart had lived in this vicinity
practically all of his married life.
His wife Rose, whom he married
in Switzerland, died in 1932. He
was a member of the Bunker Hill
church.

Surviving him are seven daugh-
ters, Mrs. Rose Warren, Mrs. Mary

FRENCH PUBLIC SERVICE UNDER ARMY CONTROL

Troops March On Vital
Centers As General
Strike Nears

SOLDIERS MASSED IN LABOR CENTERS

Fate of Nation May Be at
Stake, Warns Premier
Daladier

(By Associated Press)
PARIS, Nov. 29.—Premier Dal-
adier, warning that "the fate of the
regime and the nation may be at
stake," marched troops to vital cen-
ters today and placed all public
services under military control in
an effort to break the scheduled
general strike.

Posters announcing decrees which
transferred public service workers
from civil to military control were
put up this morning all over the
capital.

Army detachments rode into
Paris by truck and rail to swell the
ranks of 25,000 soldiers already
garrisoned in the capital district,
while thousands of mobile guards
and gendarmes were massed in la-
bor centers ready for duty.

The 24-hour strike, called by the
powerful General Confederation of
Labor, was scheduled to start at 4
a. m. tomorrow.

In a report to President Lebrun,
Daladier said:

"Harmful propaganda, of which
the government knows both the
hidden goal and the inspiration, is
attempting, by rising against the
laws of the republic, to create in
the country a state of agitation
which threatens not only to com-
promise public order but to in-
fluence the external situation of
France in a most dangerous way."

"The government, which will let
none of the rights it holds by law
be limited and which will fail in
none of its duties, toward the re-
public, will be able to take all
necessary measures to face events."

Extend Military Decrees
The premier's requisition de-
crees, which already have placed
railways under military control, ex-
tended military sway to subways,
buses, gas, water, light, mail, tele-
graph, telephone and other services.

A war ministry spokesman said
the number of employees thus re-
quisitioned ran into the hundreds
of thousands.

"It means simply that instead of
depending on ministries or private
persons or being free, workers are
placed under orders of military
authorities and required to remain
at their posts," he asserted.

Execution of the requisition de-
crees started at once with military
occupation of vital centers in the
city.

Reports Submitted By Visiting Board; Jail Repair Needed

LISBON, Nov. 29.—The infirmary,
the county jail and the Fairmont
Children's home were objects of a
report tendered Probate Judge H.
W. Hammond Monday by the visit-
ing board.

A new fire hose, new flooring in
some of the halls and repair work
in five rooms were recommended
by the board following its inspec-
tion of the infirmary. Mattresses
and double deck beds were recom-
mended for the jail.

The century-old prison was de-
scribed as "neat and clean."

"However," the report continued,
"it can not be considered a place
to keep human beings. The use of
gas stoves without flue outlets is
dangerous."

The board described conditions
at the Fairmont home as "ex-
cellent."

"The management is efficient
and sympathetic in its care of the
children." Condition of live stock
and equipment also was praised.

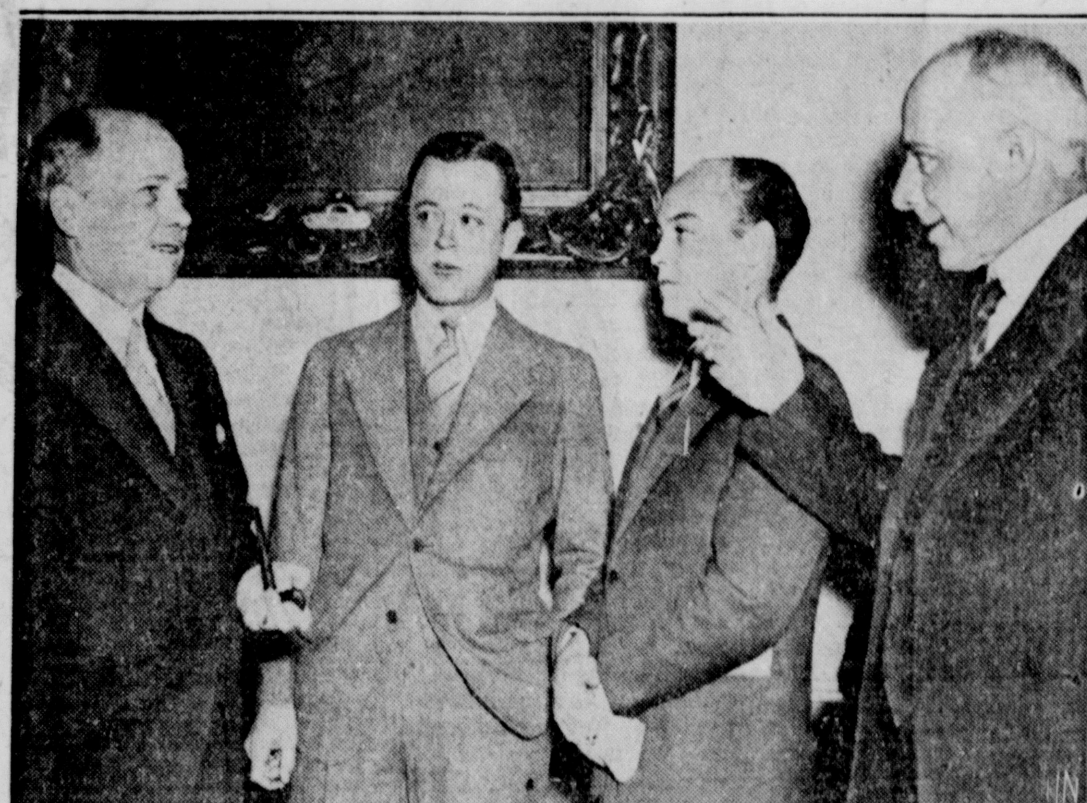

Additional school rooms to elim-
inate use of basement rooms for
school purposes was recommended.
A bond issue to provide the coun-
ty's share of the cost of a new
school building was defeated at the
primaries.

Mrs. William H. Dunn of Salem
is president of the board; S. N. Van
Blaricom, Salem, vice president and
O. T. Beight, East Palestine, secre-
tary. Other members include Curtis
Stahl, Columbiana; Mrs. W. B.

Nation Benefits In Kemal Ataturk Will

ANKARA, Nov. 29.—The late
President at Kemal Ataturk left the
principal of his \$5,000,000 estate to
the nation under his will which
was published today.

Before his death the dictator
deeded most of his farms and fac-
tories to the state.

The will, drawn Sept. 5, gives
the Republican people's party the
remaining cash and valuables of
the estate. Interest is to provide
life incomes for his sister and
five adopted daughters, a house
for Sabina Goken, one of the
daughters seriously ill of a nervous
breakdown; the highest possible
education for two children of Ataturk's
successor, Ismet Inonu; the
remaining income goes to the so-
ciety for the promulgation of the
Turkish language and history.

Water, Ice Are Not Enough Protection, Canadians Assert

OTTAWA, Nov. 29.—Canada is
concentrating now upon aerial de-
fense because "the historic barri-
cades of water and ice no longer
protect us," Defense Minister Ian
McKenzie said in a radio address
last night.

Advanced air bases, naval patrols
and coast fortifications to be com-
pleted within a year would make
Victoria "key to our Pacific coast
defensive scheme" one of the six
"best fortified places in the world,"
the minister asserted.

Similarly work has begun on an
"equally comprehensive scheme"
for the Atlantic coast with naval
defenses at Halifax and a chain of
air stations across Nova Scotia.

Priority was given the air force,
he continued, because of the vast-
ness of the territories to be pro-
tected.

SCOTLAND YARD SEEKS SLASHER

Halifax Panicky After
13 Cutting Attacks,
Mostly On Women

HALIFAX, England, Nov. 29.—A
stealthy slasher struck in another
town in England today as
Scotland Yard was at work in pan-
icky Halifax seeking a man who
has terrified the town with 13 cut-
ting attacks, mostly on women.

Winifred Walsh, 18, of Platt
Bridge, Lancashire, told police a
man seized her in the backyard
of her home and inflicted a five-
inch wound on her arm.

She said an unknown man had
been sending her letters for six
months.

Her assailants technique was the
same as the Halifax phantom's
but investigators doubted if they
were the same since the towns are
50 miles apart and the slasher was
busy in Halifax last night.

The detectives joined with 5,000
town volunteers, who armed them-
selves with pokers, heavy sticks and
Indian clubs for poking into likely
hiding places during the night.

Attacked Twice

For a week now the phantom
has crept upon victims in dark
streets, stabbed quickly with a
gleaming instrument, and fled. He
has made 13 attacks, perhaps start-
ing to retrace his course by attack-
ing Mary Sutcliffe yesterday for
the second time. She was his first
victim a week ago and is in the
hospital with wounds in the chest.
Her wrists were slashed last week.

None of the assaults has been
fatal.

THAT WOULD BE UTOPIA

Ideas about Utopia vary, according to individual desires. If there's any one notion in the United States which musters a majority, it's the peak-and-valley idea.

This is the idea that because good and bad times show up on a graph of economic activity as peaks and valleys, the thing to do is to fill up the valleys with the peaks and roll evenly along year after year with nothing to worry about.

A presidential committee on fiscal policy has been appointed, apparently to draw up an engineering plan for this considerable project in economic landscaping. As the time for the next act in the Roosevelt administration's leadership approaches, there's a rumor going about that this advisory board may be the star performer.

Depending on whether the individual believes the federal government can level off peaks and fill up valleys by manipulation of its own purse strings, or whether he now is convinced that government spending is greatly over-rated as an economic influence, he will be optimistic or skeptical about the prospect. Of only one thing can every American be sure: If there were neither peaks nor valleys in the chart of economic activity, all other Utopias would be as nothing. Whether or not that can be arranged remains to be seen. First, of course, there would need to be politicians, businessmen and wage earners eager to forego an ascent up the mountainside in order to escape a descent into the valley on the other side—and that, itself, wouldn't be far from Utopia.

TRIAL AND ERROR

Reform of the existing system of federal work relief rapidly is becoming a certainty. A bloc of Democratic senators announced a plan for revision at the close of last week, evidently to keep the Republicans, who had said the same thing the day before, from getting all the credit.

Even WPA Administrator Hopkins is reported to be considering the desirability of changes in his department's policies. Because it is certain that congress will be asked for additional funds, the whole subject of work relief is bound to be covered thoroughly in the near future.

From the outset, going back to the Hoover administration, relief has been handled in the United States by trial and error. It is not possible to say in 1938 that the problem could have been handled better than it was, because there is no basis of comparison. But it is possible to say that it can be handled better in the future. That's the advantage of the trial and error method; it permits improvement.

The glaring fault of the existing method is over-centralization of authority, tempting the political party in control of the federal government to use relief funds for its selfish advantage. This can be changed without injuring relief beneficiaries in any way. A vast amount of money can be saved by eliminating some of the glaring abuses of a system which made money available for political, as well as relief, purposes.

BOOMERANG

There's a case on record of a boomerang being thrown 180 yards before it circled and returned to the thrower. The point is that when the thing is thrown properly it's bound to come back sometime.

Beginning early in the new era there flocked to the city of Washington some of the best boomerang throwers to be found anywhere in present day America. Man oh man how they could throw it—so far and so fast it simply couldn't be kept track of.

The fact is that even the throwers forgot about the boomerangs they had tossed into the fray. But recently they have been getting some unpleasant reminders: every so often one of the blamed things curves back and smacks them squarely in the kisser. They don't like it a little bit.

Harry Hopkins, for one, has just denied he ever said, "We will spend and spend, tax and tax, elect and elect." James A. Farley is all black and blue where "we planned it that way" sailed back and soaked him. Harold Ickes is dancing with characteristic rage over some of his chickens which have come home to roost.

This is something that can happen to any man in public life. The only unusual thing about it is the apparent conviction in the minds of new dealers that it wouldn't be their turn sooner or later to have to dodge their own boomerangs. Otherwise, they wouldn't have thrown 'em so hard.

"PAY AS YOU LEAVE"

The alacrity with which terrorism against Jews in Germany is being made to pay cash dividends to the reich probably furnishes the explanation of the real motive for the latest outbreak of persecution. The National Socialist party is wasting no time setting up machinery for relieving Jews of their worldly goods systematically. "Pay as you leave" is the slogan.

There has been a great deal of excellent analyzing performed on the subject of this freshest of all evidence that man, himself, is the most inhuman of all animals. Nevertheless, the best explanation which has come to hand so far was made very briefly the other day by a German exile and pacifist, Dr. Alice Salomon.

"The best have been overcome by the worst," she said. "Many fine people in Germany would have liked to protest against the looting of Jewish shops, the arrest of Jews, the burning of synagogues, but they have no power of protest, for savage people are in control of everything."

For a few days after the Munich peace the world tried hard to believe that modern Germany was be-

ing run by something higher than the political equivalent of a mob. Unfortunately, cheered by a diplomatic triumph, the mobsters couldn't restrain themselves any longer. In the fashion of their kind, they had to celebrate the latest proof that a man with a gun and no scruples about using it usually can have his own way.

THE STARS SAY:

For Wednesday, November 30

ACCORDING to this day's astral activities, there may be some conflicting experiences. While there are testimonies of beneficial, if sudden, change or travel, with the support of elders or old connections, there are also hints of disagreements, contention and opposition, even to the point of litigation. Side-step these by tact and compromise where advisable and all may be diverted into happy and lucrative channels, with enmities turned into support.

Those whose birthday it is may find themselves engulfed in a year of contradictory situations. There is much promise through change, travel and the friendly endorsement of elders or old institutions. At the same time, there may be loopholes for definite friction, strife and litigation. These may be avoided by restraint, diplomacy and sagacity, and keeping a curb on the tongue and temper.

A child born on this day may be enterprising, practical and ambitious, thus attracting elders. It may also be hasty, impetuous and too quick in speech and action for its own good. Its nature may cause many changes in its occupation.

TWO-MILLION FOR REFUGEES

NEW YORK, Nov. 29.—In one of the most remarkable responses ever made to appeals for the aid of a people in need, American Christians and Jews in a little more than two weeks have showered at least two million dollars on agencies for relief of German refugees.

This estimate was made today by responsible officials of various drives on the basis of results in leading cities. The bulk of the donations have gone to the American joint distribution committee, which has a record of 20 years experience in Jewish relief activities in Europe. It also is the chief contributor to the national coordinating committee for aid of German refugees, an affiliation of 24 Jewish, Catholic and Protestant relief organizations.

Contributions began pouring in a few days after the Nov. 10 raids on Jewish shops in Germany, when the full extent of the anti-Semitic measures were verified, including the virtual airtight ban on permitting emigrants to take any money out of the country.

Since then the joint distribution committee has received about \$400,000 in greater New York. Nearly an equal amount has been received by other agencies including the Council of Jewish Women, the Committee for German Jewish Children, emergency committees to aid displaced German scholars and physicians, the American committees for German Christian refugees and the Catholic refugees aid group.

A special Jewish campaign in Philadelphia raised \$400,000 the first day and closed with \$610,000, well over a \$500,000 quota. Cincinnati exceeded a \$230,000 quota by \$45,000.

The distribution committee, which has spent about \$5,000,000 on the education, rehabilitation and travel expenses for German Jews in the previous five years, expects to raise an additional \$4,000,000 as its total for this year alone.

Complexities Of System Make Nerve Ills Common

By LOGAN CLENDENING, M. D.

THE NERVOUS system functions on different levels. The lowest and simplest level is the spinal cord, where a single nerve sends out a fiber to a single nerve. Higher are the sensory and motor ganglia—the thalamic and cerebellum—and highest of all is the brain.

All of these are made up of cells which, with some little variation in structure, are essentially similar. They consist of a cell body from which a number of fibers go out. The fibers from one cell contact the fibers of other cells, setting up nerve impulses. This is what constitutes nervous activity, no matter whether it is the higher activity of thinking or the lower activity of instinctively pulling away the fingers from a burning thumb.

Can't Conceive Them

It is impossible for the finite mind of man to conceive of the infinite complexities of that finite mind of his. The mere number of individual cells in your central nervous system is incalculable. Space spreads around us to infinity filled with stars. Yet, all the stars you can see on the brightest night, including the Milky Way, are nothing as to the number of cells in your cerebrum. And all of these are constantly contacting each other, resulting in different

Dr. Clendening will answer questions of general interest only, and then only through his column.

forms of nervous activity. It has been estimated that if all the possible contacts of the cells of the central nervous system of one individual were made at the rate of ten a second, it would require a million years to complete them. Truly there is a concrete anatomical basis for the relationship implied by Kant—that his faith in God was renewed by contemplating the starry heavens above and the moral law, the sense of duty, within.

With a set of functions of such complexity, it is no wonder that switches are often thrown the wrong way and that things go wrong. Disorders of the nervous system are the most frequently known. Foremost are the disorders of the mind. Mental patients occupy more beds in American hospitals than those of all other kinds of patients put together.

Brain Patterns Differ Indeed, so complex is the activity of the higher centers that no one can define exactly where insanity begins. No one person's brain pattern is the same as anyone else's. Certainly no one uses his brain cells as anyone else does. "Everyone's queer but thee and me," said the old Quakeress, "and thee's a little queer." And before we come to the actual level of recognizable insanity, there are all the variations of emotional disturbances, including hysteria and nervous prostration, alcoholism, lars, misers, kleptomaniacs and plain eccentricity.

Now, if the nerve physiologist could see one of the deranged brains in action, with all the cells magnified to gigantic size, and compare

WHAT'S BACK OF IT?

Editor, The News:

I have noticed two or three references in your paper to the city engineer's plans to spend \$23,000 of the city's water funds on a PWA project to replace the boilers and smoke stack at the pumping plant and to install a coal stoker. What I have been waiting for is some explanation of the sudden need for these replacements and just what is back of this deal.

We have been told that all the boilers are old and some day will need to be replaced but surely all of them have not given out at once. Isn't it rather odd that the engineer should take such a sudden interest in replacing boilers which he said only a few months ago were good for a few more years?

He also told us not so long ago that the big problem in the water department was to find a new source of future supply. Has he been doing anything about that? Not that we've been told, anyway. In that case how can he determine the boiler capacity required for the future?

I don't know anything about the condition of the smoke stack but it seems a little strange that the engineer hadn't reported to council that it should be rebuilt until he drew up his plans for another PWA spending program and included it. From experience I know a stoker would save the city money in coal bills, but why couldn't it be installed without robbing the waterworks fund of \$23,000.

Isn't it true, Mr. Barckhoff, that you started to investigate costs of generators at about the same time you started his new PWA stuff? If so, why don't you come out in the open and admit that this scheme of yours is just a roundabout way of forcing on the city an electric power plant? Your plans certainly indicate that you are heading in that direction. You and the mayor were haled in your plans to take all the waterworks money to install a softening plant. Why, then, do you persist in finding other ways of spending the money in large sums just to put across some pet scheme?

For one, I am in favor of saving that water fund to use for better purposes as the needs arise. As an example, I think it would be better to at least try to get the mud out of the city supply. Let the boilers continue to do their work as long as they will and save the money to clear up the water. Are councilmen satisfied with this program, or are they going to be duped into approving a plan which is just a build-up for a municipal power plant?

"Often a Bridesmaid"

BY HAZEL LIVINGSTON

SYNOPSIS
Margaret, eldest of the three children, is the prettiest. It is she who provides the boy friends for her sisters, Natalie and Barbara. Margaret picks Kenneth Ramsey, a penniless but popular and handsome young football hero. Margaret announces her engagement to Ken. Then comes a blow of financial trouble. Alex Ramsey has lost all his investments. Margaret postpones her wedding and goes to work in a shop. Ken only earns \$18 a week, but has hopes of obtaining position with a brokerage house.

CHAPTER IX.
Margaret was so full of his plans, so content with Margaret's news of her engagement to Ken. She couldn't expect me to get a lot of women's clothes!" he'd said. "I have his future that they talked of. After all, it was future, too, she knew. So many and down. All ready to quit Campus Haberdashery and in with Slade and McSorrell. The first, then J. H. Hynes, the bond house, would make a ten-dollar offer for September. Ken's job in Slade and McSorrell's pool and everything would be done until one of the Slade McSorrell boys would drop in the Campus Haberdashery and get that something pretty good about to break, and Ken could under himself as good as hired."

Ken burst in, hair on end, "Maggie, I've got it! I've got my job!"

as I'd like to go to the islands, that you'd be more valuable here, where everyone knows you."

Ken's handsome face clouded. He said: "You think they never heard of me in Honolulu, is that the idea?"

"Well, but here, where you really know people personally and they want to help you—"

"Honolulu's an island, but it isn't a desert island. They have newspapers and radios and moving pictures and books. They get the news, see? An All-American half-back will go over like a tidal wave in a place like that, where it's a kind of a half summer resort, and a lot of gay life, and rich women—"

She couldn't suppress the giggle. "Oh, that's it?"

He wasn't amused. "It's part of it. A very serious consideration. What's the matter with you lately? It's my big chance and you take it all wrong. Your big chance, too, for a fellow needs a wife in a job like this one. Someone to entertain, be nice to people—"

"I know. But you know I can't go now when you go, and when you're there and me here and all these miles, and that ocean between us—"

"Who said anything about waiting. You're going too!"

"Oh, Kenny, I can't. You know I can't. How can I, possibly?"

"You're going."

In his arms her head bent back and his laughing eager lips met hers. She laughed and struggled, and then gave up and clung to him as tightly as he clung to her.

"It's a go. We sail on the Lurline two weeks from today. Think of it! Two weeks from today!"

Of course she knew she couldn't sail with Ken in two weeks. It was absurd, it was impossible.

But not so impossible as letting him sail without her.

Also they'd have to be married first. They shouted with half hysterical laughter when they thought

Off to Help Jews

Plans will be discussed for settlement of Jewish and other racial and religious groups seeking to leave Germany.

Theatre Attractions

Dick Powell, Olivia De Havilland in a scene from "Hard to Get", showing at the State Wednesday only.

Dick Powell and Olivia De Havilland have the top roles in "Hard to Get," a show Wednesday only at the State.

"Brother Rat," a story of students at Virginia Military Institute, the "West Point" of the south, concludes tonight at the State.

Dick is not, as usual, playing a singer in his latest picture. He is an ambitious and aggressive young business man, who, at the outset, is shown as the manager of a combined gas station and auto camp, and most of the interest—as well as the farcical complications—arises from his efforts to interest some capitalists in his plan to establish a chain of auto camps across the country.

Spotted Heiress

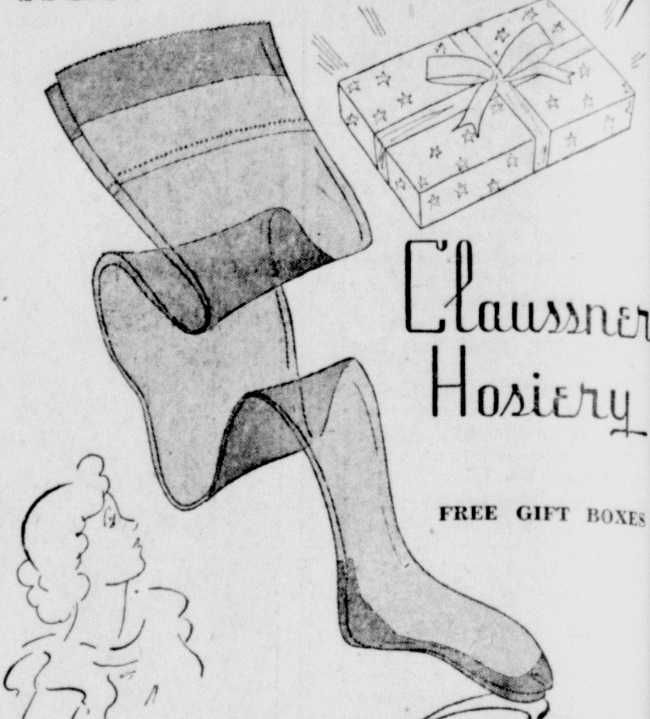

Olivia is a spoiled and petulant heiress who buys gas and oil at Dick's place and then finds she is without a cent to pay for it. Whereupon Dick, who doesn't know who she is, uses physical force to compel her to work out her bill by weeping out and making the beds in the ten bungalows of his auto camp.

Her father heads the company which employs Dick, so she attempts to get papa to discharge the young man, but her parent only laughs at her story, so she changes her tack and tries to get her revenge by tricking Dick into laying his plans before as hard-boiled a group of capitalists as has ever been annoyed by a young promoter.

He Wins Eventually

He suffers many indignities, both physical and mental, but eventually he puts over his plan.

WITH THE ANNOUNCEMENT of the handsome new 1939 Packards, no Packard owner now finds himself left with a style "orphan."

In fact, no Packard owner has ever awakened one morning, full of pride in his still-new car, only to discover that radical style changes have branded it an "out-of-date model."

Does this mean that Packard opposes style changes? Of course not—for change is the essence of progress. But Packard believes that style can, and should be, used in the best interests of the car owner, rather than against them.

This is why Packard makes its style

changes with common sense and restraint, rather than with sensationalism.

So, again for 1939, you will find Packards re-styled, more beautiful than ever. But you will also find them unmistakably Packards—no one has to guess what they are.

And, again, you will find new advances in Packard design and construction—new evidences of the quality that contributes a long mechanical life to match Packard enduring identity.

See your Packard dealer today. Discover that a Packard—the car that is built to last longer and look well longer—is surprisingly easy to buy, own and run. It costs nothing to get the facts.

We'll deliver a new 1939 Packard Six 5-Passenger Sedan to your door, with standard equip—**\$1115** ment for only . . .

Your present car, if of average value, will probably cover the small down payment **\$350** of only . . .

Monthly payments can be arranged.

EAST'S CULTURE URGED IN WEST

**Needed To Complement
Orient's Gift To Civ-
ilization**

MANILA — Oriental culture is
needed to complement the Occi-
dent's contribution to civilization
according to Prof. Gregg M. Sin-
clair, director of the University
of Hawaii's Oriental Institute.

Prof. Sinclair stopped here while
enroute to India to visit colleges
and universities and study the
advantages of establishing an In-
dian department in the University
of Hawaii.

"India is the fountainhead of the
Orient's culture," he said in an
interview. "The philosophy back of
our movement to establish an In-
dian department in Hawaii is that
the West needs the culture of the
East."

"With a longer history than any
country in Europe, with an ancient
literature greater in quantity than
that of Greek and Latin literature
combined, the originator of one
world religion and a host of na-
tional ones, surely India has some-
thing worthy of our attention. And
yet only eight American universi-
ties have chairs in Sanskrit—and
not one has an adequate depart-
ment in which the various phases
of Indian culture, literature, his-
tory, political science, religion and
art are discussed."

Prof. Sinclair said the Univer-
sity of Hawaii has already Japa-
nese and Chinese departments. He
said the Oriental Institute was or-
ganized for two purposes: to train
students in the languages and
culture of the great living civiliza-
tions in Asia and to do some-
thing to make the rich cultures of
the Asiatic peoples known to the
peoples of the Occident.

Prof. Sinclair said the idea of
establishing an Indian department
in Hawaii was inspired by Dr.
Kalidas Nag of the graduate divi-
sion of the University of Calcutta,
which he plans to visit during his
tour of India.
In an interview, Prof. Sinclair
was quoted as favoring establish-
ment of a Filipino department in
Hawaii.

ALUMNI GAME ADDED TO SALEM CAGE SCHEDULE

OHIO PRODUCES NINE UNBEATEN TEAMS FOR 1938

Massillon Has Leading Claim to State Scholastic Grid Title

By FRITZ HOWELL
COLUMBUS, Nov. 29.—Ohio's high school football season was just a matter of history today, but there was plenty of material for a winter-long argument as to which team had the No. 1 claim for the mythical championship.

Nine teams wound up the campaign without a blemish, six of them winning 10 straight, two taking seven in a row, and another turning a five-tile schedule into a grand slam.

First week Massillon's Tigers, claimants of the state crown for the last three seasons, held the perch all alone with 10 straight, but five others moved into the king row in the Thanksgiving day weekend melees.

Knotted with Massillon are Portia, which beat Findlay 13 to 0; Cleveland Cathedral Latin, 7-0 winner over West Tech before the year's record crowd of 55,000; Adena, 12-0 victory over Dillonville; Portsmouth, 12-6 winner over Huntington, W. Va.; and Van Wert, which beat Montpelier 21 to 0 over the weekend.

Cathedral Latin, in scoring the first points of the year against West Tech, and handing that team its first defeat, stretched its two-year winning streak to 17. Portia reached 16 in a row, Adena 19 and Portsmouth 16 since tasting the pangs of defeat, but Massillon topped them all by staying out of the "los" column for the last four years.

Along with the unbeaten-untied teams, seven others slaved off defeat for a year but were canceled up in deadlocks. Shelby Sandusky and Wooster won eight and tied one; Galion, Forest and Cincinnati Roger Bacon won seven and tied one, while Dayton Oakwood was deadlocked twice in nine starts.

Of the sterling sextet tied at 10 in a row, Massillon's well-balanced crew had the best offensive mark with 302 points, but also had the poorest defensive record, allowing an average of one touchdown per game. Van Wert, in allowing but one touchdown, had the top defensive record.

Adena, a Class B school near Steubenville, played a 6-6 tie with Steubenville Central Catholic in this year's opener, but was awarded the victory by a 10-0 count because Steubenville used an ineligible player, thus keeping the long winning streak intact.

As Portsmouth wound up with 10 straight, Coach Paul Jenkins notched his sixth unbeaten campaign in 11 years of high school coaching. His record over the stretch, after graduating from the University of Kentucky in 1927, shows 99 victories, 11 defeats and two ties. In his first four years, at Ashland, Ky., Jenkins' teams won 41 and tied one. They lost two in his fifth season, but hopped back to take 10 straight the following year. This year's squad was his first unbeaten contingent at Portsmouth, last year's team losing to Huntington, W. Va.

Only two teams fell out of the select class in the abbreviated holiday firings, and both had been tied previously. Cleveland West Tech's loss to Cathedral Latin, with Capt. Feibon's 63-yard touchdown turning the trick, was the first for that team, while Piqua bowled over Troy, 6 to 0, on a snow-covered field for the first time since 1926.

BOWLING RESULTS

That close race for the leadership in the Quaker City league maintained tight as ever as the six teams continued to stay within firing position of first place.

Harris Garage moved into a tie for the top position with the Burt C. Capel Realtors by taking three games from Floding & Reynard, who were formerly tied for the lead. The Realtors held to a share of the top position by winning two out of three games with Sharpe & Wise Contractors.

Tied with Floding & Reynard in second place one game behind the leaders, are Calladine's Service and the Althouse Motors. Calladine's won two out of three games with the Hotel Lape and the Motors took two out of three from the Economy V-8's in their matches last night.

Other matches saw the Coy Buicks win three games from the Salem Motor and the Trades Class take two out of three from the Golden Eagle.

Bill Hull of the Harris Garage team turned in the best score of a night, a 617 series which included a record 256 single game.

Mullins Foremen won three games from the Masons to safely defend their lead in the American league at the Masonic alleys last night.

Fernengel's Colds remained in second place despite losing two of three games with Demings, while the Ohio Edison held third place on the strength of three wins over the Carroll Ceglers. Reich Sports won two out of three games with the Electric Furnace in the other American league match.

DUKE TO MEET SOUTHERN CAL. IN ROSE BOWL

U. S. C. Draws Tough Foe In Annual New Year's Day Classic

By ROBERT MYERS
LOS ANGELES, Nov. 29.—It's Duke, the rock of the Southern conference, and Southern California, survivor of a bitter grid campaign along the Pacific, in the Rose Bowl battle Jan. 2.

Concluding in six hours negotiations that usually take a week or more, Southern California last night invited the Blue Devils of Durham, N. C., to play its Trojan warriors in Pasadena's annual post-season game, and Duke lost no time accepting.

There is joy in the hills of North Carolina today, for never before in the 23-year-old history of the far-west classic has one of its teams played in the rose-bordered bowl.

But just as there is celebrating in North Carolina, so is there gloom in the bluebonnet state of Texas and a wall for every rebel yell echoing over the rolling countryside of Tennessee, for Texas and Tennessee had unbeaten, untied Rose Bowl candidates too, in Texas Christian and the University of Tennessee.

Sentiment was high here in favor of little Davey O'Brien and his T. C. U. Horned Frog mates; Tennessee had a growing delegation of hopeful backers, and disappointment was keen within the two factions when Duke came up with a rush over the weekend and won the invitation.

Duke's supporters in Southern California were legion, however, and no one could criticize its 1938 team or its record of nine straight victories with never a touchdown, never a point, surrendered.

Southern California drew a tough assignment in Duke, the team that tossed back the challenges of Pitt, Colgate, Syracuse and other strong eleveners of that caliber, and in addition to a team coached by a man, Wallace Wade, who brought three Alabama teams to Pasadena and left with two victories and one tie for a near-perfect record.

Against this is the Trojan record of never having been defeated or tied in four Rose Bowl games, three of which saw Howard H. Jones, who spent a year coaching Duke in 1924 before coming out here, at the helm of S. C. grid forces.

PRO GRID TEAM SEEKING COACH
Milan Creighton Quits As Tutor of Windy City Football Squad

CHICAGO, Nov. 29.—Charles W. Bidwell, owner of the Chicago Cardinals of the National Professional Football league, today was searching for the successor to Milan Creighton, who resigned yesterday as head coach after the club's worst season since 1933. The team lost 9 games in 11 starts.

Five nationally known coaches were under consideration for the post to which Creighton, a former University of Arkansas end, was elevated as playing coach in 1935. They are: Ernie Nevers, former Stanford star and Cardinal player who coached them for several years; Dr. Clarence W. Spears, former Minnesota, Wisconsin and Oregon coach, now coach at Toledo university; Dutch Clark, coach of the Detroit Lions for two years; Dick Hanley, former head coach at Northwestern and Paddy Driscoll, head coach at Marquette university. Driscoll is a former Cardinal star. He resigned yesterday during the latter part of the 1936 season.

Creighton resigned because, he said, he felt that "a change would be beneficial to me as well as to the team." He intends to continue his coaching career, either in professional or collegiate circles.

Preparations for the opening of the 1938-39 basketball season in the various city leagues were being made today by J. M. Kelley, director of Salem recreational activity and manager of the Memorial building where all league games are played.

A meeting of managers of Class A and Class B teams will be held at the Memorial building at 7:30 p. m. Thursday to formulate plans for the start of the season. All managers are expected to be present or to send a representative of their team.

The opening games in the Class A and Class B leagues will probably be played in the second week in December Kelley announced.

Present indications are that the Class A league will include six teams, while the Class B circuit will consist of 10 or more. Kelley hopes to have several Class B teams transfer their affiliation to this week.

The Althouse Motors of the Class A circuit will have a workout at 6:30 p. m. Wednesday, while the Christians of the Class B league will practice from 7 to 9 p. m. Wednesday.

Baptist teams of the Class B and Church leagues will hold a practice session at 7:30 p. m. Thursday.

Career Ended

Monte Stratton

PITCHER LOSES HIS RIGHT LEG

Amputation Ends Career Of Monty Stratton Of Chicago

By CHARLES DUNKLEY
CHICAGO, Nov. 29.—The brilliant baseball career of Monty Stratton, 26-year-old pitching star of the Chicago White Sox, was at an end today, cut short by the amputation of his right leg at the knee.

The operation to check spread of gangrene which threatened Stratton's life was performed by surgeons at Dallas, Tex., hospital yesterday after he had accidentally shot himself while hunting rabbits on his mother's farm at Greenville, Tex.

J. Louis Comiskey, owner of the White Sox and himself ill at his home, was broken up over the loss of the graying youth, who had such a promising future.

"I'm deeply sorry and hurt," Comiskey said. "Monty was a fine boy, well liked and a great pitcher with a great future. It will be difficult to replace him. My deepest sympathy goes to him."

Bad luck has dogged Stratton's footsteps since he joined the White Sox two years ago. In 1937 an emergency operation followed by an ailing arm hampered his first season's performance. Even so he wound up with 15 victories and 5 defeats. A recurrence of an arm injury put him on the sidelines for the first month of the 1938 campaign and an injured ankle added several days more but he gained credit as the Sox leading hurler with 15 victories and 9 defeats.

Stratton, discovered with Galveston of the Texas league probably could have been sold for \$150,000 if Owner Comiskey had cared to place him on the market.

INDIAN CHIEFS PONDER DEALS

Cleveland Bosses Talk Over Trades In Last-Minute Confab

By LARRY HAUCK
CLEVELAND, Nov. 29.—The Cleveland Indians' board of strategy is holding last-minute skull practice this week on how to get the better of baseball trades.

The winter bargaining league officially opens Dec. 7 at the minor league meeting in New Orleans and the clubs bid three—President Alva Bradley, Vice President C. C. Slapnicka and Manager Oscar Vitt—will be there "determined to do business."

Bradley today expressed the club's hopes to strengthen itself the David Harum way. But win, lose or draw, he said, the Indians are determined to make some drastic changes.

"Our prime objective," Bradley said, "is to bolster the middle of the infield. But we are open to all offers."

He said he couldn't "list the players we would trade" but he failed to single out anyone that wouldn't be let go if the right offer came along.

Vitt signified his willingness to swap Outfielders Earl Averill, Bruce Campbell, Roy Weatherly and Julius Solters, Shortstop Lary Lary and Second Baseman Sammy Hale.

He said he wanted to rebuild around such players as First Baseman Hal Trosky, Third Baseman Ken Keltner, Outfielder Jeff Heath, Catchers Frankie Frylak and Rolfe Hemsey, and Pitchers Bob Feller, Johnny Allen and Mel Harder.

PANTHERS RATE THREE PLAYERS ON EAST SQUAD

Cornell Is Also Given Three Places On All-Eastern Team

By HERBERT W. BARKER
NEW YORK, Nov. 29.—Cornell's Ivy league champions and the Pitt Panthers placed three men each on the Eastern All-Star football team compiled today by the Associated Press.

Jerome (Bud) Holland, at end, Bill McKeever at tackle and Sid Roth at guard—the entire left side of Cornell's powerful forward wall—were chosen for first team berths as were Louis Vincent (Bill) Daddio, end; Steve Petro, guard, and Marshall Goldberg, great Jewish back, all from the strong Panther array.

Sharing the other first team berths were two representatives each from Holy Cross and Dartmouth and one from Columbia. "Bullet Bill" Osmanski, smashing fullback, and Joe Delaney, big tackle, were the Holy Cross choices. Bob MacLeod, ace back and Bob Gibson, center, represented Dartmouth. Sid Luckman, of course, was the Columbia standard-bearer.

Holland, Goldberg, Luckman and Osmanski all are carry-overs from the 1937 team. Roth and MacLeod both were named to the second team a year ago.

Statistics on the first team selections:

	Ht.	Wt.	Pos.
Holland, Cornell	6.02	207	E
Delaney, Holy Cross	6.03	200	T
Roth, Cornell	5.11	185	G
Gibson, Dartmouth	5.11	185	C

MacLeod, Dartmouth	6.00	190	B
Goldberg, Pitt	5.11	184	B
Osmanski, Holy Cross	5.11	195	B

Second team: Ends, Hugh Wysocni, Villanova, and Henry Jacuski, Fordham; tackles, Henry Stella, Army, and Walter Shinn, Penn.; guards, James Hayes, Fordham, and Mat Kuber, Villanova; center, James Conlin, New York university; quarterback, Wilmettside, Syracuse; halfbacks, Ray Carnely, Carnegie Tech, and Irving Hall, Brown; fullback, Harold Stebbins, Pitt.

U. S. C. CAN TEST SCRIBES PICKS

Southern Cal. Will Meet Two of Three Ranking U. S. Teams

By HUGH S. FULLERTON, JR.
NEW YORK, Nov. 29.—Between their final game of the regular season next Saturday and their appearance in the Rose Bowl Jan. 2, Southern California's Trojans, champions of the Pacific Coast conference, have a chance to test the accuracy of sports writers in ranking football teams.

The Trojans play Notre Dame Saturday and meet Duke in the Rose Bowl.

In the final Associated Press football ranking poll of the year, 90 sports writers and editors chose Notre Dame for the third straight week, as the nation's No. 1 team with Duke in third place. Texas Christian, which hoped for a Rose Bowl bid, came second.

The margins separating the first three weren't large. Notre Dame was awarded top ranking by 48 voters, T. C. U. drew 23 first-place ballots and Duke 15. Tennessee collected the other four and fourth place.

The first ten (first place votes in brackets, points on 10-9-8-7-6-5-4-3-2-1 basis):

TEAM	Pts.
Notre Dame (48)	823
Texas Christian (23)	733
Duke (15)	782
Tennessee (4)	363
Oklahoma	303
Carnegie Tech	251
Pittsburgh	251
Southern California	194
Holy Cross	189
Minnesota	177

Second ten: Cornell 52, California 51, Fordham 41, Texas Tech 39, Villanova 38, Michigan 37, Alabama 23, Tulane 17, Northwestern 15, Dartmouth 14.

Other votes: Nebraska and Mississippi 6, Vanderbilt 5, North Carolina, Georgetown, Clemson and Army 3, Stanford and Purdue 2, Iowa State and Southern Methodist 1.

The Cardinals, who completed their campaign last Sunday completed 114 passes in 11 games and set up an efficiency mark in passing by completing 47.5 per cent of their aerials. The old records were 108 passes completed by Green Bay two years ago and 48.7 per cent efficiency by Brooklyn in 1933.

The Giants, however, have completed 49 per cent of their passes so far, 87 of 176 and Washington has cracked on 99 passes out of 214 tried.

Breezy Briefs Of Sport From Brietz To You

BY SID FEDER

NEW YORK, Nov. 29.—The P. G. A. tips you that Henry Cotton is almost sure to come over from England in the spring to tangle with Sammy Snead.... And the Belmont Club at Boston, already has a bid in for the match.... Incidentally, Swinm's Sammy will take more than 30 G's out of golf this year.... Boys coming back from Durham says Moishe Goldberg played his greatest game against Duke.... Dizzy Dean has been putting around \$200 on the bankroll for every one of those stops on his speaking tour.... Consolation corner for southwest coaches: Six of the 11 men who started for Texas Christian against Southern Methodist graduate in June.... Including Davey O'Brien and Ki-Yi Aldrich.... Church Crowell, the coast heavy, is in town for his go with Philadelphia Jim Robinson on the Farr-Nova card, Dec. 16.

Mike Jacobs is offering Babe Ruth \$15,000 to manage Mike's jai alai bizness in the Hippodrome for six months.... And the Babe is thinking it over, even though it isn't a major league job.... It's a girl at the Jack (Miami U.) Hardings.... And right after the young lady arrived, Jack's Hurricanes went out and walloped Bucknell 19-0.... Tony Lazzari is about ready to change his mind about leaving the Cubs.... Now that Phil Wrigley has offered him a new job in the club's minor league setup.... Julius Heil, Wisconsin's governor-elect, is one of the hottest trotting hoss fans around.

Some of the east's better football officials wonder why this section doesn't send along two whistle-toters when its teams play inter-sectional games away—just like other areas do.... Sounds like a good deal at that.... Lou Little was up at Bradford, Pa., last night to speak at a banquet for the local high school's fourth undefeated team in seven years.... (And, incidentally, to look over a couple of the boys for Columbia.... Congrats to Tommy Richardson, this corner's nomination for the best story teller in baseball, for his new four-year term as Eastern league prey.... Wahpeton (N. D.) Science has just recommended our Drew Middleton for a master's degree in "sports journalism," because he boomed those Wahpeton Wildcats for the Rose Bowl.

As Barker may play pro basketball when the grid season's over.... Incidentally, Ace, who collected pah-lenty on Duke over Pitt, says the Green Bay Packers will knock the Giants' ears off if they meet again in the pro grid league playoffs.... Giants did it to the Packers last time out.... Everybody's rooting for Monty Stratton to pull out of that hunting accident okay.... He was one of the top youngsters for flinging that onion.... Out in Cincinnati, there's an East Night High and a West Night High, and neither has won a game in two years.... So what more natural than that they should tangle Sunday to play it off.... Why not call it the "What's-the Use Bowl, boys?"

Carnegie Tech has received six bowl "feetors" to date.... So, just to be on the safe side, Bill Kern has scouted both Tennessee and Texas Christian.

Outstanding players coming up from the reserve team are Jim Kleon, Burton Stutter and Galen Duncan. The last named two each broke into the varsity lineup once last season.

Other players from last season's 10-player varsity squad available for service this season are Amos Dunlap, Glenn McLaughlin, Cliff Lowry and Lester Keapp. Two of these substitutes from the 1937-38 squad, Dunlap and McLaughlin, saw action in all but three of the Quakers' 15 games.

TECH TO PLAY IN BOWL GAME

But Carnegie Has Not Decided Yet Which Bowl It Will Be

PITTSBURGH, Nov. 29.—The Tartans of Carnegie Tech will play a post season game on Jan. 2, and they hope the opposition will be the Horned Frogs of Texas Christian university.

The trustees and faculty of Tech last night approved a post-season game for the Tartans, who won eight this season and lost only to Notre Dame.

The Tartans, with five tentative bowl bids, made no secret of their desire to meet the Horned Frogs, and Athletic Director Clarence Overend said Tech's decision, therefore, would probably be delayed until T. C. U. accepted a bowl bid.

Train Derailed

NEW YORK, Nov. 29.—Six persons were injured, none seriously, when a streamline electric engine pulling The Owl, New Haven railroad express train bound for Boston, was derailed as it left Grand Central terminal early today.

The accident occurred in the Park avenue tunnel at 51st street.

Arabs Battle

JERUSALEM, Nov. 29.—Twenty-three Arabs and two British soldiers were killed today in a stiff fight between a British army unit and an armed Arab band south of Haifa. Several British soldiers were wounded.

northern industrial region where the strike began.

There were isolated incidents of minor sabotage. Several buses and trucks were halted by pickets who deflated tires or removed wheels.

But the requisition decrees generally were accepted quietly with workers clustering around posters announcing the move. The real test was expected to come tomorrow when the army attempts to keep public service workers at their posts.

Appeal for Compromise

The moderate press published urgent appeals for a last minute compromise between the cabinet and leaders of the strike which many feared might lead to civil fighting.

The newspaper La Republique said "history teaches that it is generally like that that revolutions begin."

"Let us have good will from both sides," pleaded L'Ordre, "before barricades are raised."

I Ouvre declared: "Men of good will must seek a compromise up to the last minute. History tells us in bloody characters what happens when the republic goes into battle against the masses of the working people."

The order to the army came after Daladier had rejected attempts by war veterans and political parties to mediate between the government and the labor unions.

The newspaper Le Figaro, which is close to the premier, declared the possibility of mediation was "very slight."

"The time of interminable discussions between the government and labor leaders has passed," the paper said.

Possible Arrest

Sources close to the government said Daladier had conferred with Paul Marchand, minister of justice, to discuss possible arrest of Socialist Ex-Premier Leon Blum, Communist Leader Maurice Thorez and Leon Jouhaux, secretary of the Confederation of Labor.

Three leaders and their aides would be prosecuted on charges of inciting to strike.

Daladier and his ministers took the position that the movement must be completely and thoroughly smashed to guarantee the government's authority.

The labor leaders, however, as well as the Communists and Socialist leaders, were resolved that the strike must go on as a protest against the financial decrees they have called "full of misery and starvation for the little man."

The Socialist newspaper Le Populaire charged that Francois De La Rocque, leader of the Rightist French Social party, had "mobilized his Fascist street terrorists" for duty tomorrow during the strike.

Just how many of the labor confederation's 5,000,000 members would join the walkout was not known, but unions throughout the country were approving resolutions to walk out.

One of the largest groups was the government employees' unions with 950,000 members, including 520,000 railroad workers, who defied cabinet orders to disregard the strike call.

MOSCOW—More than 3,000 geological expeditions have been sent out this year by the Soviet government to discover new natural resources. Many new oil deposits have been found in Yakutia, tin has been discovered in Svanetia and zinc, lead, tin and silver in Northern Ossetia.

have to meet individual situations as they arise.

There were general expressions that the committee should do nothing to tie the hands of its representatives in congress.

Convention Idea Dead In line with this attitude, most members agreed that the proposal for a mid-term convention, suggested by former President Hoover and others, was dead.

A "harmony" theme was on the lips of most committeemen. In the words of F. F. Taggart, the Ohio committeeman:

"When our problems come up, we must just sit down and look at them and work them out in a friendly, calm way. All the things that confront us will work themselves out as they come along."

Taggart referred particularly to the selection of a new minority leader in the house to succeed Rep. Bertrand Snell of New York, who is retiring from congress. He predicted that contenders with the least strength probably would withdraw before the caucus of Republican house members.

Among those mentioned for the post have been Joseph W. Martin, Jr., of Massachusetts, James W. Wadsworth of New York, and Thomas A. Jenkins of Ohio.

The committee's session today was closed to the public. Among other things, it was expected to study ways and means of wiping out a \$700,000 deficit left over from the last presidential campaign.

Gets \$500,000

A New Jersey court has awarded Mrs. Helen Boyle (above) of Baltimore, Md., the \$500,000 estate of her aunt, the late Mrs. Matilda A. Bryan, who once was one of the famous "Florodora" girls. Mrs. Bryan left a will bequeathing her estate to Mrs. Boyle, but 14 other relatives contested the will.

Left Homeless by West Coast Fire

After a night of horror, these forest fire refugees returned to the ruins of their home in Topanga Canyon, Calif., to stand guard over the few belongings they were able to salvage. The fire, worst in history of the state, spread desolation through the southern area, destroying many luxurious homes of movie luminaries.

NEW WATERFORD, Nov. 29.—Thieves broke into the gasoline station operated by A. W. Bretz early Sunday morning and escaped with merchandise worth \$50. It was the third and only successful attempt to rob the station within a year.

The burglars entered through a basement window and a trap door which led to the upper part of the building. Bretz reports they took cigarettes, gloves and motor oil.
